

Colorado BioScience ASSOCIATION

FOCUS

Letter from the President

The most common question I hear is "How is CBSA funded?" We are proud, as an independent non-profit 501(c) 6, to be a 100% privately-funded organization. Our budget is dependent on our membership dues and sponsorships. Each year we work to provide the best service possible to the bioscience community and ensure the success of our organization.

have been working to enhance our Business Savings Program to offer members discounts on products and services with industry-leading suppliers. As of 2012, **Fisher Scientific** is now our primary supplier of laboratory and safety products, equipment, chemicals, and reagents. I encourage you to explore the various programs and benefits exclusively available to members from Fisher Scientific. If you have questions, please contact me or our local sales manager, David Holden, david.holden@thermofisher.com.

CBSA sponsorships offer a variety of exposure and recognition opportunities for your company. Sponsorship agreements can be created on an annual basis or event specific to provide you the ideal format of engagement. We are currently seeking sponsorship partners for the **BioWest Conference**, September 11, 2012 and booking advertising space in our annual magazine, **Bioscience Colorado**. We work closely with your company to provide a valued partnership and the benefit of showcasing your expertise and commitment to this industry. My team and I are always happy to answer your questions about sponsorship.

Most importantly, CBSA's Board of Directors plays a crucial role in the success of our organization. Our Board represents a high-level of bioscience leadership in Colorado and creates a strong reputation for our organization. Please mark your calendar for our **Annual Meeting the afternoon of April 4th**. This meeting is open to all current members and will provide an opportunity for the membership to vote on the nominated board slate. I look forward to seeing you there.

Holli Riebel

President and CEO
Colorado BioScience Association

We continually work to improve service to our membership. Over the past couple months we

Sprint Denver Partnership

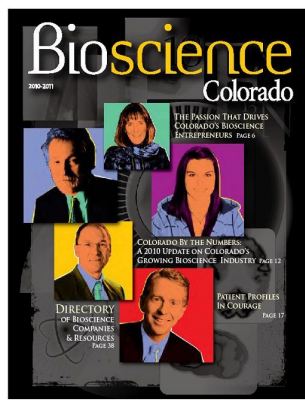

SPRINT

We are honored to continue our partnership with Sprint Denver for a third year. Sprint Denver's support of printing our **Bioscience Colorado** magazine has been invaluable to the publication. As a local company, their expertise in BioTech and Pharmaceutical printing and mailing is extremely important to our industry.

For a consultation to further discuss a project or see some of Sprint Denver's sample work, contact Michael Ehrman at 303.371.0566 or mehrman@SprintDenver.com

2011 Cover

2010 Cover

Since 1984, Sprint Denver has been a prescription for quality and cost effective printing, fulfillment and mailing, for medical and pharmaceutical companies. We understand the complexities of the regulatory approval process and the importance of getting print materials produced quickly so a new drug or medical device can be promoted in the market. From packaging to pocket folders, Sprint Denver works closely with clients to consult on the concept and execution.

Our equipment is capable of printing with special coatings, die cutting, inserting, folding, and mailing. We do kit assembly and we are Colorado's largest single piece mailer. Your deadlines and quality are critical to Sprint Denver. We have hundreds of years' experience on our staff and they take great pride in what they manufacture. Sprint Denver can coordinate shipping to your national sales force or delivery to a certified distributor. Focusing on the **BioTech and Pharmaceutical** field's means we have the knowledge and expertise to help communicate your message efficiently and cost effectively to your customers.

Sprint Denver's projects include:

- Sales Promotional Literature
- Product Information- Brochures
- Sell Sheets & Catalogs
- Direct Mail
- Presentation Kits
- Displays and Packaging
- Posters
