

NexGen Pharma, Inc., a leader in quality pharmaceutical manufacturing and nutritional products for over 80 years, seeks to grow the talent of its Product Development team with a Formulator in Colorado Springs, Colorado. We provide a work environment that is fast-paced and entrepreneurial where our human capital is valued as the number one asset. We create success through a goal-oriented and goal-achievement atmosphere, surrounded by a committed staff and management team.

The ideal candidate will have the following credentials:

- **BS/MS in chemistry, nutraceutical or pharmaceutical related sciences.**
- **Minimum 5 years experience directly related to formulation development, scale-up and manufacturing of dietary/nutraceutical supplement products.**
- **Requires good knowledge of GMP related to pharmaceutical manufacturing.**
- **Handling of heavy equipment, potentially hazardous materials required.**
- **Flexibility of working hours required.**
- **Strong communication skills, both written and verbal.**
- **Ability to organize, prioritize and effectively perform concurrent tasks with minimal supervision.**
- **Strong attention to detail.**
