

## **Director Drug Safety Posting**

10 16 2009

OSI Pharmaceuticals Inc. currently has an opening for a Director in our Drug Safety Department. OSI recently announced that it will be consolidating its offices to Ardsley, NY in 2010. This position may initially require training and/or working at the Boulder, Colorado site, and will be required to move to Ardsley, NY when the timing is appropriate.

This position is responsible for overall department activities to maintain compliance with regulatory reporting requirements and accurate regulatory submission documentation. More specifically this position:

- Has responsibility for overall activities within Drug Safety including compliance with SOPs, goals and regulatory timelines.
- Leads the strategic planning process within the department in coordination with area Senior Director/VP including ongoing oversight of individual case processing by safety associates.
- Authors applicable sections of safety reports and periodic reports for projects across multiple therapeutic areas and sites.
- Has responsibility for supervision of direct and indirect reports and performance reviews for direct reports.
- Develops budget for the department and monitors budgetary compliance within the department.
  - Serves as a resource for Drug Safety personnel and other groups throughout the organization on safety related issues.

### **Education/Requirements:**

The selected candidate will have a degree in a healthcare discipline such as a PharmD or RN.

- At least seven years safety surveillance experience in a pharmaceutical company
- Must be proficient in local and applicable foreign safety regulations, have a strong clinical background and good writing skills and must be able to author entire reports, complex analyses and other documents relating to the safety of OSI products.
- Have detailed knowledge in the use of drug safety databases.

At OSI, we strive to create a stimulating, innovative environment driven by talented associates. Tremendous career opportunities are open to anyone with the necessary

qualifications. Our competitive salaries and excellent package of fringe benefits complement a business casual work environment.

OSI Pharmaceuticals is an Affirmative Action and Equal Opportunity Employer.  
M/F/V/D.
